

March 18, 2020

To our valued patients:

The health and well-being of our patients, families, staff, and community is our top priority, now and always. Seeing a dentist regularly is a vital investment for your general health.

We want to assure you that we are taking continuous steps to ensure that our office remains a safe place for every patient. It is important for you to know that dentists are experts in infection control, trained to prevent the spread of infectious diseases. The precautions we take every day will also help prevent the spread of the Coronavirus.

In response to the Coronavirus pandemic, we are closely following and adhering to precautions advised by the Centers for Disease Control (CDC), the Massachusetts Department of Health and the American Dental Association. These recommendations have advised us to close our dental practice, effective Thursday March 19<sup>th</sup>-April 6. The doctor will be on call in the event of a true dental emergency. Should you require emergency dental care, please call our office emergency line at 978-882-1376. The doctor will return your call.

By taking these extraordinary precautions, we can make a difference in helping to preserve a limited supply of personal protective equipment critical for emergency dental care and frontline healthcare personnel responding to the pandemic. If you have a non-urgent appointment scheduled with us during this period, our office will contact you to reschedule your appointment.

Please stay safe and healthy

Sincerely,

Spiro Saati D.M.D.
